

Activated Jurisdictions

As part of the Secure Communities strategy, ICE is deploying a biometric information sharing capability to quickly and accurately identify aliens in law enforcement custody. Since this capability was first activated in 2008, biometric information sharing has helped ICE identify and remove more than 41,000 convicted criminal aliens from the United States.

ICE

Secure
Communities

As of **September 28, 2010**, the biometric information sharing capability is activated in **658** jurisdictions in **32** states. By 2013, ICE plans to be able to respond to all fingerprint matches generated nationwide through this capability.
